The Eiffel landscape

An overview of the projects in our landscape

Mattias Linnér - Ericsson

How to find the landscape

https://eiffel-community.github.io/

Eiffel Community Landscape
Plugins
Gerrit Eiffel Plugin
Eiffel Gerrit Herald
Eiffelactory
Eiffel Broadcaster
Get started
Eiffel easy2use
Libraries
Eiffel Commons
Eiffel Python lib
Eiffel Gerrit Lib
GO SDK
.NET SDK
Community & Support
Community
Community HTML pages
.github
Eiffel Playground
Eiffel Community Repository Template
Specification & Architecture
Eiffel
Sepia
Visualization
Eiffel VICI
Eiffel Store
EiffelVis
Event Sending
REMReM
Simple Event Sender
Event processing
Eiffel Intelligence
Store & query events
Eiffel Persistence Technology Evaluation
Eiffel Graphql API
GoER
Test framework
ETOS
Protocol Integration
CDEvents Translator
Eiffel Demo CDEvents

Lifecycle

- Sandbox stage is for the projects that are at the early stages of their development lifecycle such as newly created projects or the projects with heavy initial development going on.

- Graduated stage is for the projects that achieved production level functionality and quality. Eiffel Community expects projects in Graduated stage to be active, both within the community and towards their users.

- Archived stage is for the projects that do not expect further development or maintenance and may very well be in dormant state.
